

Mission Support

Smart. Simple. Seamless. AND HUMAN.

The Future of Student Relationship Management.

Houston, We Have Your Back.

When you run a school, “support” is not a nice-to-have. It’s mission-critical. Students don’t pause their lives because a vendor missed a callback. Staff can’t wait three days for a ticket response while enrollment, attendance, billing, or compliance is on the line.

And yet... **plenty of vendors act like your problems are optional:**

- ✗ They don’t answer the phones.
- ✗ They hide behind ticket queues.
- ✗ They delay until you stop asking.
- ✗ They “solve” churn by making it painful to leave.
- ✗ They treat your data like leverage instead of a responsibility.

ApolloSRM is built on the opposite idea – TRUE PARTNERSHIP:

- ✓ We win by being available, accountable, and fair.
- ✓ Just like NASA’s mission control teams in Houston...
- ✓ Astronauts are never left stranded mid-flight.
- ✓ When something breaks, mission support responds. Fast. Competent. Every time.

What “Mission Support” Means in Real Life

This isn’t a slogan. It’s a set of behaviors.

1) We Answer

- ✓ You can call us and reach a human.
- ✓ We don’t route you into an endless maze of “press 4 for disappointment.”
- ✓ If it’s urgent, we treat it like it’s urgent.

2) We Respond Fast

- ✓ Same-day response when it matters.
- ✓ Clear acknowledgement, real triage, and a next step.
- ✓ No “we’ll look into it” and then silence for a week.

3) We Make It Right

- ✓ If we broke it, we fix it.
- ✓ If you're stuck, we unblock you.
- ✓ If something is confusing, we help you simplify the process, not blame the user.

4) Founder-Level Accountability

- ✓ We're a founder-led company. That means you get something rare in software:
- ✓ Access.
- ✓ If you need it, you can have our cell numbers.
- ✓ Not because we want chaos... because we believe accountability builds trust.

5) No Lockouts. Ever.

- ✓ We don't punish customers for asking hard questions.
- ✓ We don't “accidentally” slow-walk exports.
- ✓ We don't create obstacles so leaving feels impossible.

6) Data Freedom Guarantee

- ✓ Your data is yours. Period.
- ✓ Export any time.
- ✓ Clean formats.
- ✓ No ransom-by-process.
- ✓ No “special fees” to get your own information.
- ✓ No hostage situations disguised as software.
- ✓ If you ever decide ApolloSRM isn't the right fit, we'll help you like adults.
- ✓ That's what confidence looks like.

Ready for a Better Vendor Relationship?

If you're tired of being treated like a ticket number, come work with a team that picks up the phone and stands behind the product.
