

ApolloSRM MOBILE

Student Mission Control. Smart. Simple. Seamless.
The Future of Student Self-Service.

Student Mission Control in Every Pocket

- Give students a single mobile home for schedule, communication, payments, attendance, and coursework. Less chaos, fewer lines at the front desk, cleaner data for staff.

What the Mobile App Delivers in Orbit

- **Schedule + Alerts:** Live schedule with real-time changes, rooms, and push alerts.
- **Chat + Messaging:** 1:1 and group chat with instructors and classmates.
- **Account + Holds:** Balance, payment history, and key holds in one place.
- **In-App Payments:** Pay tuition and fees securely (cards handled by a PCI processor).
- **Verified Attendance:** Check in/out with timestamped verification (QR, location, device options).
- **Class Materials:** Syllabi, files, links, and announcements organized by class.
- **Nudges + To-Dos:** Personalized reminders so students stop forgetting paperwork.

Student Mobile App

Why Mobile + Verified Attendance Is Mission-Critical

- Higher attendance compliance with timestamped proof, not guesswork.
- Fewer front-office interruptions because students self-serve schedule, chat, and payments.
- Faster collections with in-app payments and automated nudges.
- Cleaner data for staff dashboards, audits, and funding reviews.

Ready for Launch?

Give every student mission control on day one with ApolloSRM Mobile.
